

JOBE WATERSPORTS

PRODUCT GUIDE 2026

A group of people are relaxing on a boat on a large body of water. The background shows a range of mountains under a clear sky. The water is calm with some ripples. The people are wearing swimwear, and their legs are visible in the foreground.

GETS YOU ON THE WATER

Jobe is for everyone. We are a community, a global movement, a family of real people, who are discovering the beauty of watersports.

We create unforgettable **#jobemoments** for everyone since 1974.

No matter who you are, no matter your age or size, no matter your background. When you want to get on the water, you will fit in our family. We develop our products with the greatest care and highest quality materials, every day again and again.

This is what **'gets you on the water'** means to us.

Join our family and share in our love for watersports.

2026 PRODUCT INNOVATIONS

This is where innovation and our passion for adventure come together. This year, we've introduced entirely new ranges, upgraded many of your favorite products and added stunning new colorways. Our latest advancements focus on enhancing performance, comfort, and high-end quality, ensuring you get the most out of your watersports experience. Explore the future of water sports with Jobe!

P. 44 INFINITY PLATFORMS

Discover bold new shapes like never before, plus multiple docking options for PWCs, foils, and more. Create your own custom playground with modular platforms and expand your boat's chill-out zone in style.

P. 169 NEW APPAREL

Gear up with the new Neoprene Top and Shorts- designed for flexibility, comfort, and quick-dry performance during watersports sessions. Complete the look with the updated Discover Sneaker, now in two new colors.

P. 210 WATER REPELLENT DUFFEL BAG

Discover our high-end dry bag collection, extended with the 40 liter duffel bag. Designed to click and connect effortlessly to our SUPs and kayaks – blending fashion with functionality!

P. 85 CONCEPT SERIES

A complete new range expertly designed for specific needs and unique adventures. Introducing the new Compact and Hybrid SUP.

P. 181 WATERSKI

Our latest waterskis feature a revolutionary design - unlike anything the sport has seen before. Sleek, daring, and unapologetically bold, it's built for those who ride to stand out.

MIX AND MATCH

Unleash your creativity with Jobe Sports' mix and match principle. Our innovative products can be seamlessly paired with each other, allowing you to craft the ultimate look for your water adventures. Create your perfect set and start making waves on the water!

TOWABLES

A FUNTUBE FOR EVERYONE

Jobe has been making the best inflatable products since 1974, and no matter where you are in the world, there's a big chance you've seen a towable of ours somewhere along the coastline.

With our knowledge and experience, we have been making summers awesome since the day we started and continue to do so!

EXCEPTIONAL SHAPES

A deck is just a deck right? Wrong! A Jobe deck is something different, something which makes us stand out. Instead of using industry standard mold which is used by everyone, we made our own to make something which just hits different and makes the most out of the original shape.

So shapes like our Scout, Aistream and many others have been tweaked to perfection! With edgy lines, unique shapes and great design, you have something which will have all the heads turning when you're towing!

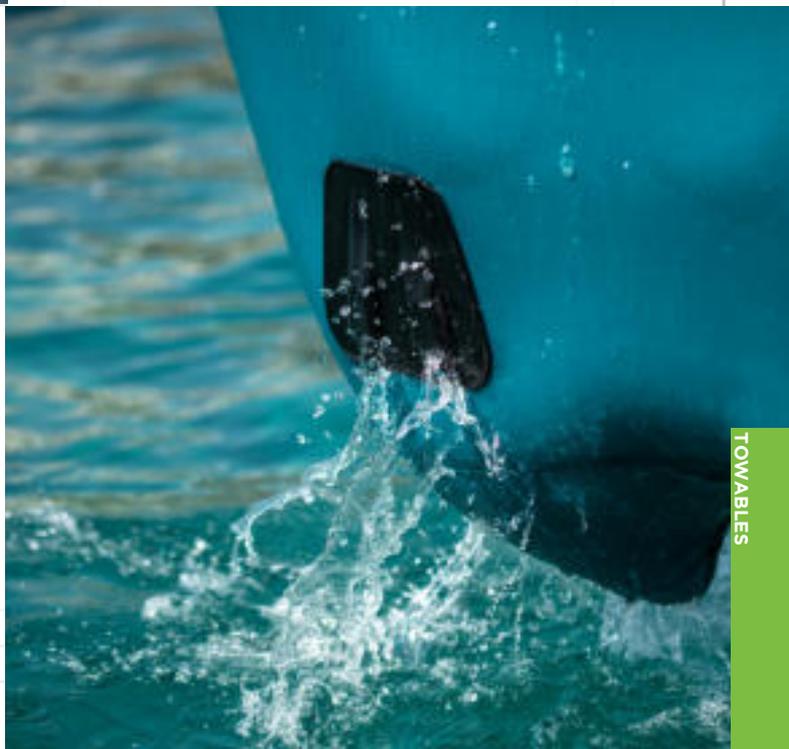

FEATURES THAT MAKE THE DIFFERENCE

Our towables are thoughtfully designed with unique features that enhance your experience on the water.

They're equipped with a smart drainage system that reduces drag and improves fuel efficiency. Soft tops provide a cushioned, comfortable surface that's gentle on the skin, making long rides more enjoyable for everyone.

When it's time to get back on, the built-in boarding platform on the Ridge makes re-entry from the water quick and effortless.

It's all about smarter design for carefree rides.

TOWABLE EXCELLENCE

Experts say it's the combination of our high production standards and the use of high quality materials. We say it is because our towables are thoroughly tested and undergo multiple quality checks. Therefore we can guarantee the quality of our products with a 3 year warranty on every towable!

BOSTON VALVE
for quick inflation
and deflation.

PVC INNER
Gauges vary from 16G (kids tubes),
24G (1|2|3 person tube), 30G
(2|3|4 person tube) and 36G
for commercial products.

NYLON COVER
Deniers vary from 420D for
a 1|2 person tube, 840D for a
2|3 person tube and 1680D for
rental products.

HANDLES WITH NEOPRENE KNUCKLE GUARDS
for a comfortable ride.

NEOPRENE DECK PADS
for a comfortable ride
glued and stitched to the cover.

EXTRA SAFETY

Jobe towable tubes have extra durability and are extra safe because they consist of multiple air chambers. The combination with the Boston valve, which ensures air can only enter but not escape through the valve, makes Jobe towables a watersporter's favorite.

KEY FEATURES

- **BIGGER SIZES** For stability on the water
- **BOSTON VALVE** Designed to resist high pressure
- **DOUBLE-STITCHED NYLON** for extra durability.
- **COMFORTABLE HANDLES** with neoprene knuckle guards.
- **QUICK ROPE CONNECTOR**
- **NEOPRENE DECK PADS** for comfort and prevention of damage on the skin.
- **3 YEAR WARRANTY**

MORE THAN A RIDE

The rush, the thrill, the adrenaline. Feel the beating of your heart.
You never know what's next..

Are you ready?

FIND THE PERFECT TOWABLE FOR ALL YOUR WATERSPORTS NEEDS

Jobe offers the biggest towable range in the market and we've got something for everyone, from thrillseekers to those who want to chill. Check out our overview and find the perfect towable which fits your needs.

The Manta series is an innovative self-inflatable carpet that is easy to store and take with you. It only takes up half the size of a regular watercarpet! On top of that, you can zip the Manta to other leisure products, making your own mini-aquapark!

KAYAKS

EASY GOING

CROFT

Recreational, compact and durable. The Croft 340 is the perfect entry to your world of kayaking - For the long term! Fully provided with all the necessary accessoires. And just as our full kayak range, the Croft is both usable for going solo or together.

PERFECT ALLROUNDER

GAMA

The Gama 365 might look similar to our Croft 340, but that's not the case! We've used a different fabric and the bottom air chamber features drop-stitching, resulting in a super stiff and fast kayak. With that being said, the Gama is a kayak that is also well suited to touring activities.

TOURING AT ITS BEST

TASMAN

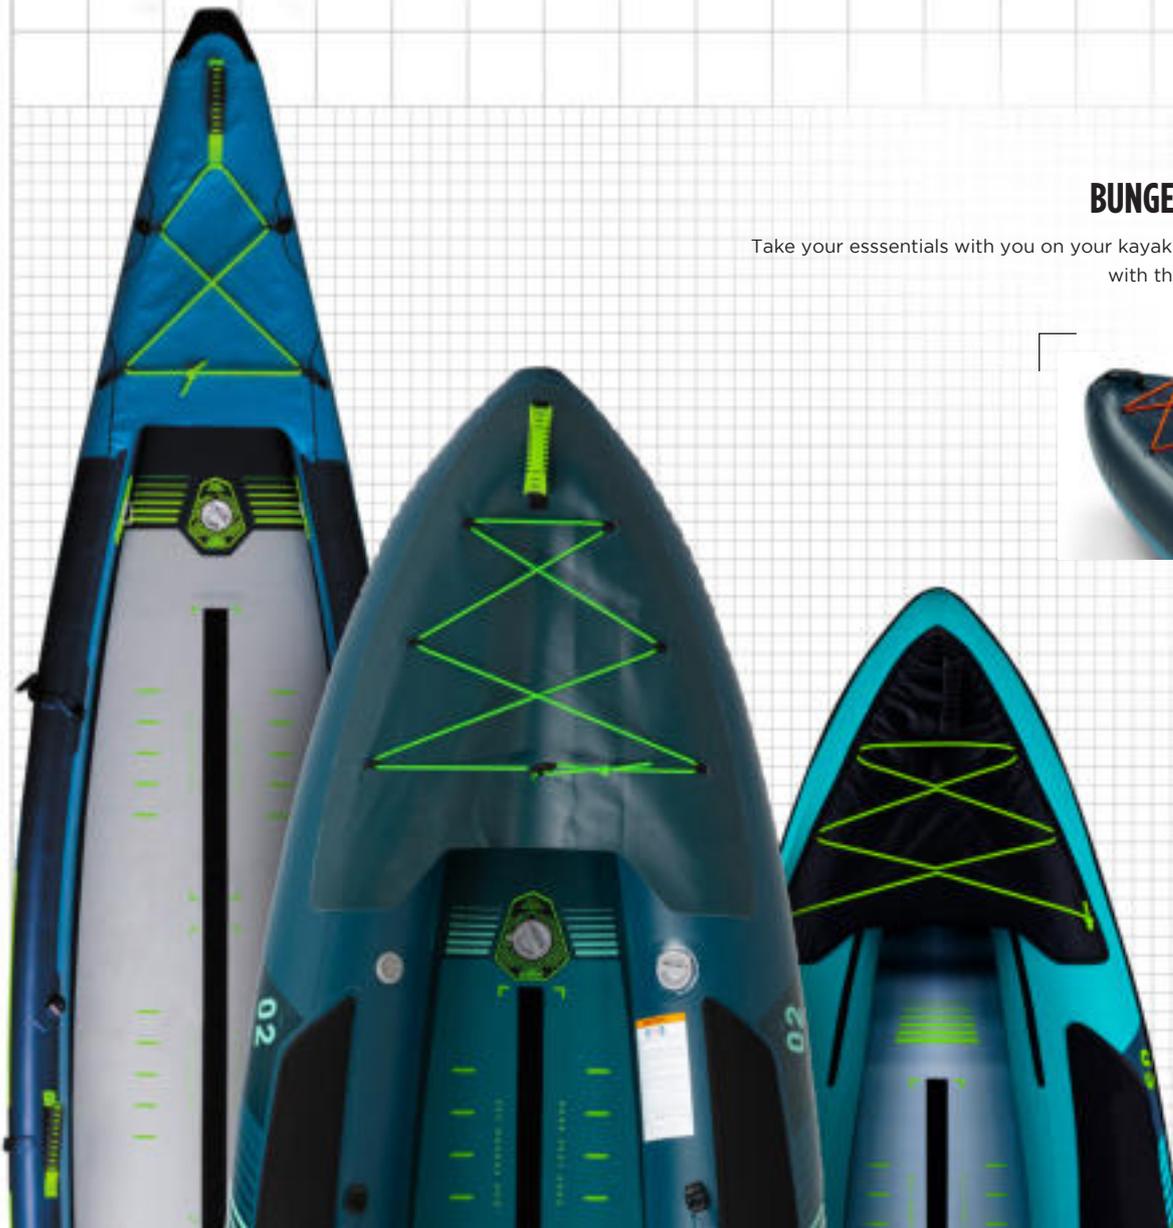

This is not your average kayak. This one is for the true explorers, who like to keep on exploring for mile after mile! From the remote Scandinavian waters to the coastline of British-Columbia... The Tasman eats these places for breakfast!

ADJUSTABLE SEATS

Put two seats in the front and back for a duo ride or go solo with one seat in the middle! Easy to fix on the velcro strap.

BUNGEE STORAGE CORD

Take your essentials with you on your kayak trip by securing them with the elastic bungee cord.

INFLATABLE →
COMPACT

All Jobe kayaks are inflatable! The deflated kayak can easily be stored with the paddles, seats and pump all in one bag.

An aerial photograph of a turquoise river flowing through a rocky canyon. Three kayakers are visible in the water, paddling their kayaks. The water is clear, revealing the rocky bottom and some aquatic plants. The surrounding cliffs are light-colored and rugged. A large, prominent rock formation is visible in the foreground, partially submerged in the water. A red banner is overlaid on the right side of the image, containing text and a logo.

STAND UP PADDLING

LITE SERIES

Dive into our Lite Range, crafted to deliver Jobe quality at an affordable price point. With 'single layer dropstitch construction' for lightweight performance, these stand up paddle boards are perfect for newcomers looking to start their paddleboarding journey without breaking the bank.

PREMIUM SERIES

Our flagships: the Premium range! A SUP range which has gained a lot of traction and has earned Jobe its great reputation. These SUP boards come with a longer deckpad, a double stringer and 6 inches thick. Plus you get a Fiberglass paddle to enhance your SUP experience.

ELITE SERIES

The best we've created! Our Elite Series is made with high-end materials and comes with extra features such as a carbon reinforced sidewall, sandwich construction, unique hook system and extra bags. Next to that, you get a carbon Stream paddle to get the most out of every session.

CONCEPT SERIES

We're excited to introduce our new concept SUP range, designed for versatility and performance. The collection includes a compact SUP for easy transport and storage, and a hybrid SUP that blends the best features of a paddleboard and kayak. Whether you're short on space or seeking multi-functional adventure gear, this new range has you covered.

FIND THE PERFECT SUP FOR YOUR NEXT ADVENTURE

Our SUP range offers something for every paddler, with options that vary in price and features - the higher the range, the more advanced the design and extras you'll get. Choose an allround board for relaxed leisure rides or go for a touring board if you're into longer adventures. And new to the lineup: a specialty range designed to meet specific needs.

LIGHTER BOARD, LIGHTER PRICE

Explore the Lite Range, where innovation meets affordability without compromise. Featuring **'single layer dropstitch construction'**, these SUPs are crafted to be exceptionally lightweight, allowing us to lower costs while maintaining uncompromised quality and performance. Ideal for those who seek both affordability and excellence in paddleboarding.

EVERYTHING YOU NEED

This range is tailored for beginners seeking exceptional quality. With a 6-inch thickness for improved stability and comfort, these boards still boast top-notch features synonymous with our brand.

An EVA deckpad, bungee storage cord, and all essential accessories - for a complete and enjoyable paddleboarding experience.

FORM FOLLOWS FUNCTION

01 DECKPAD

A large EVA deckpad gives you a comfortable surface to stand on all day long, while providing you with plenty of grip.

02 BUNGEE STORAGE CORD

Our storage cord is integrated in the design, creating more room to store your gear when you're out on the water.

EZ LOCK FIN

The most easy to use and secure fin ever! Easily click this fin in and secure it by pressing down the lock, it's as easy as can be.

03 HEAT BONDED TECH

Our heat bonded technology fuses layers of the board together using heat, creating a durable, airtight seal that enhances the board's longevity and performance!

PREMIUM QUALITY

When you buy a stand up paddle board from our Premium Aero range, you can expect something extra!

The Premium range comes with extra features which are unique to this collection, making it the best of the best!

WIDER AND LONGER DECKPAD

The Premium Aero Range comes with an extra wide deckpad, this gives you more freedom of movement on the SUP and gives you added room to take someone along for the ride.

The center part is covered with soft EVA foam for a comfortable ride and the back of our deckpad has diamond pattern for added grip to initiate fast turning.

04 RAIL TAPE

This raiitape is placed over the seems of the board creating a more durable board which guarantees the best airtightness.

06 DOUBLE STRINGER

A stringer on the top and bottom of the board for extra stiffness and strength, this also supports the rocker of the board making sure the SUP keeps its shape.

05 X-STITCHING

X stitching involves cross-stitching threads through the board's layers, creating a tight and secure bond that enhances the board's structural integrity.

40% CARBON STREAM PADDLE

Our Premium SUP boards come with a lighter, stiffer and better paddle; a fiberglass paddle with 40% carbon elements. It is three-piece adjustable, making it easy to carry with you or store in a (SUP)bag. Our anti twist system on the paddle puts an end to additional forces by locking your paddle.

DOUBLE STRINGER

Jobe was ahead of the game with 1 stringer on the board but now we are adding another stringer on the bottom of the SUP. This makes for more stiffness and keeps a better rocker shape in the board. The double stringers are placed for extra stiffness and more control, this also supports the rocker of the board making sure the SUP keeps its shape.

THE BEST OF THE BEST, FOR THOSE WHO WANT NOTHING LESS.

We have introduced the Elite Series for a select group of stand up paddlers who want nothing but the best. Jobe already offered one of the best boards in the world, and now we offer also the best packages in the world. Packed with the absolute best accessories of our range. "There's always room for improvement" does simply not apply for the Elite Series. We have gone all-in here!

ELITE INNOVATIONS

In this special range you will find the crème de la crème of stand up paddle boarding. This range is called into life to demand the stand up paddler who wants the best SUP experience possible.

HOOK SYSTEM

Adapt your board to the next tour you're going to make. Attach the cargo net or a drybag to your board. Whether you need big storage or just your bottle of water, the hook system adapts easily.

SANDWICH RAILTAPE

The Elite series comes with a sandwich railtape for less weight and more response. But we didn't stop there, we also added an additional railtape over the bottom seam. This prevents any leakage of air, giving you the most durable SUP out there.

UPGRADED PACKAGE

A stand up paddle package of the Elite series only consists of the best products possible. A 100% Carbon paddle, triple action pump, additional touring fin and waterproof bags of the best quality possible.

CHANNELS

An innovative channel system which makes for a straighter line forward and gives you better traction on the water.

CUSTOM DECKPAD

A total new EVA deckpad pattern that is exclusive to the Elite series.

E-DUNA DRIVE

A powerful electric motor that both inflates your boards and sails you through the water. Provides up to 3 hours of running time and controllable on 3 different speed levels.

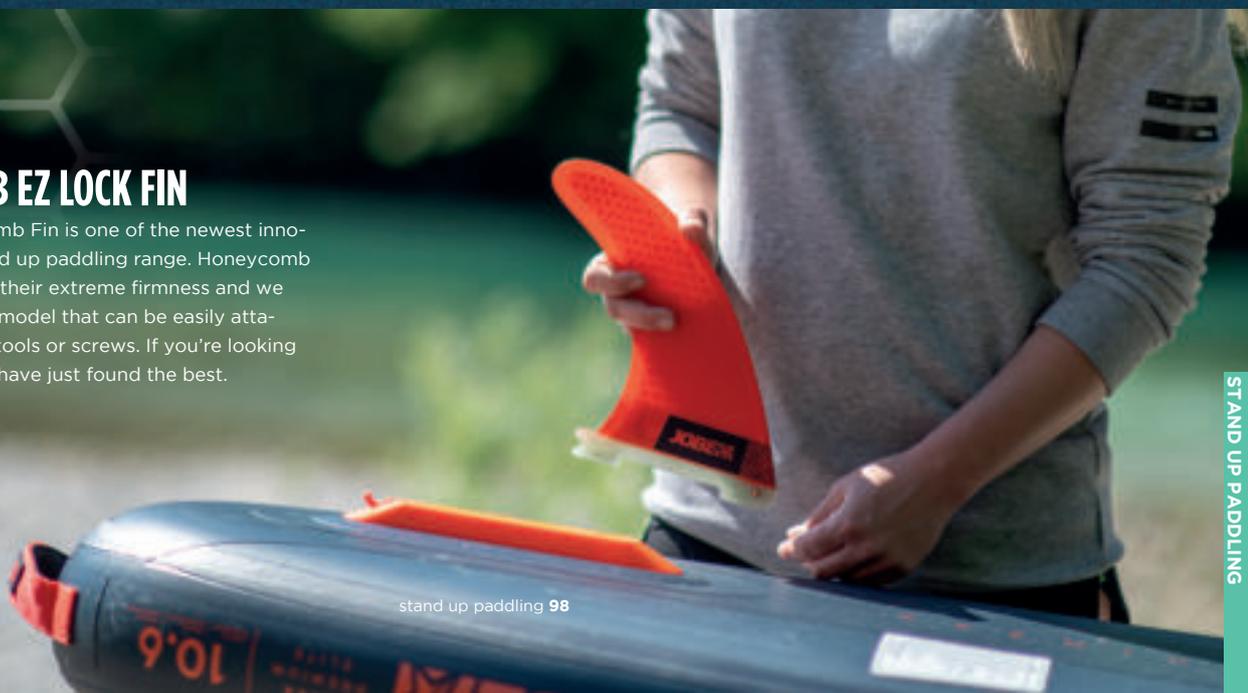

CARBON RAIL

Provides extra stiffness, more durability and of course a high-end finish that is a lust for the eye.

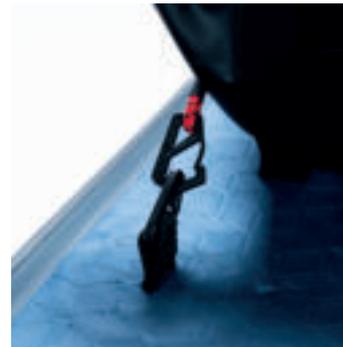

HONEYCOMB EZ LOCK FIN

The new Honeycomb Fin is one of the newest innovations in our stand up paddling range. Honeycomb fins are known for their extreme firmness and we have developed a model that can be easily attached without any tools or screws. If you're looking for the best... You have just found the best.

PURPOSE BUILT

Discover the freedom of the water with our Concept SUP Series — expertly designed for specific needs and unique adventures.

The **Compact SUP** is perfect for tight spaces and travel, offering easy storage without sacrificing performance. For flexibility on the water, the **SUP/Kayak Hybrid** lets you switch from standing to seated paddling in seconds. And when the wind picks up, the **Mohaka windsurf SUP** features a mount for attaching a sail, adding extra thrill to your ride.

INSPIRED BY NATURE, PERFECTED BY HUMAN

The new Stream paddle owes its origin to one of nature's best paddlers: Ducks! Millions of years of evolution have formed a shape that creates the best motion with as less effort as possible. We have processed that unique shape in our all new paddle: **THE STREAM.**

ANATOMY BREAKDOWN

As we said, this paddle is inspired by duck feet and it shows in its design. A duck feet has 3 long toes with the web in between and you can see the resemblance in our Stream Paddle! Three ribs, one in the middle and two on the sides, act as the bones and reinforce the blade. The rest of the blades, functions as the webbing in between the toes which push you forward when paddling. This structure is tried and tested through evolution itself, so we can tell you: this works great!

INFLATABLE SUP SEAT

Item 480024002

PRICE

€ 64,99 • £ 54,99

FEATURES

Deflated size: 75 x 29 cm • Inflated size: 73 x 28 x 25 cm • 420 Denier • 0,5mm | 20 gauge PVC • Tapered shape that fits all • 2 straps with buckles

VESTS

JOBE'S PERFECT FIT

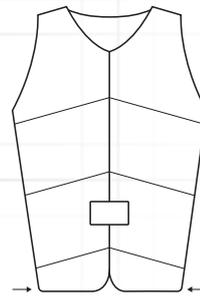

Jobe watersports life vests and buoyancy aid vests have a better fit than ever: Jobe's Perfect Fit. The fit of every Jobe vest is based on scientific research (conducted by TNO, 2015), where people of all sizes and ages were measured and weighted to determine the optimal size for every body type. We took these measures to extend our size range. Every vest is then tested by an official certified institution to make sure it meets the highest quality, comfort and safety standards.

A size for every body!

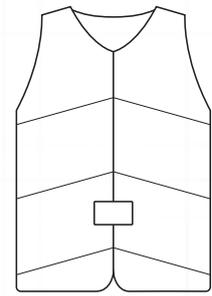

MENS PLUS SIZES

Whether you have an athlete or leisure kind of body type; there's always a vest with the right fit for every man and every body out there. Our + range gives just a bit more room around the waist so everyone can find their perfect fit!

XS to XL

XL+ to 5XL+

WOMENS PLUS SIZES

Plus sizes for Womens vests have a different meaning than the mens vests. To create a perfect fit for our female customer we have minimized the grading between the womens vests sizing, this resulted into the plus sizes in the women range to ensure you find your perfectly tailored vest. For example; the S+ vest has the same length but a wider fit than the S sized vest.

XS S **S+** M **M+** L XL XXL

NEOPRENE MEN

A FAVORITE AMONG WATERSPORTS ENTHUSIASTS

The Neoprene Men vest is a fusion between our old Neoprene vest and Segmented vest. By combining these, we made a new vest, which offers more freedom of movement, a better fit and better performance. This makes our neoprene vest a real “bang for your buck” product, which you won’t find anywhere else!

MATERIALS

NEOPRENE FABRIC

(Full & Supreme comfort)

- High stretch
- Soft to the skin
- Flexible fabric for complete freedom of movement

PVC FOAM

(Dual & Adventure vest)

- Durable closed cell foam
- Comfortable & soft

EPE FOAM

(Universal & 4 buckle vest)

- Lightweight
- Low water absorption

CHOOSE YOUR VEST

Our vest range covers everything from essential safety to peak performance. We offer various options to suit everyone - from casual riders to dedicated pros. Each vest is designed in a different range of comfort. At the top end, you'll find ultimate freedom of movement, ideal for wakeboarding where flexibility is key.

A FRAGMENT OF WHAT TO EXPECT

Top performance is what it's all about! We wanted to create a vest which has the best performance, but which also keep safety in mind. Strategically placed panels make for optimal freedom of movement but ensure floatation. Where others sacrifice safety for performance, we went above and beyond to ensure the best of both!

SIMPLY THE BEST!

From its focus on safety, to its freedom of movement, to the "Perfect Fit" technology, the Fragment has it all! But it's also made from the best neoprene, which is our Supreme Stretch Neoprene. A vest with such a great panel placement, combined with the stretchiness of our neoprene makes for a vest which is simply the best!

WETSUITS

FOR ALL WATERSPORTS

With a Jobe wetsuit you can enjoy watersports all year long! The thickness, length, construction and the thermo lining of the suit determines the warmth of a wetsuit. Jobe wetsuits range from 2 to 4/3 mm neoprene, so you can hit the water with any temperature.

All Jobe wetsuits have ergonomic panels for optimal freedom of movement and comfort. Perfect for all kinds of watersports! On top of that, the collection has fresh colors with bright details that matches with the rest of the Jobe collection.

MIX AND FIND YOUR PERFECT MATCH!

NEW FOR 2026

We're excited to introduce two fresh additions to our wetsuit collection: the **Neoprene Short** and the **Neoprene Longsleeve**. Designed for comfort, performance, and versatility, these pieces are perfect for longer sessions in the water on slightly colder days.

The Neoprene Short offers flexibility and core warmth without restricting movement, while the Longsleeve provides lightweight insulation with full upper-body coverage.

LIMESTONE NEOPRENE

At Jobe, we use a limestone-based neoprene, which comes with lots of benefits. It's light, warm, it soaks up less water, has more flex and limestone has better isolation qualities. This offers great freedom of movement for the ultimate watersports experience. On top of that, this fabric is more resistant to tearing than traditional wetsuits, which makes them more durable!

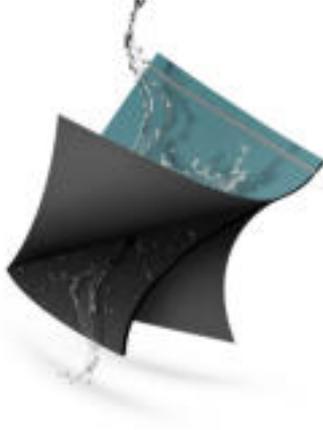

WHAT WE'RE MADE OF

We demand only the best neoprene for our wetsuits. Neoprene is the most important determinant of stretch and because we believe you should comfortably perform water sports, Jobe wetsuits all have a great level of stretch. Enjoy the comfort and flexibility of how we incorporate stretch into our wetsuits.

REGULAR STRETCH

1. Polyester top layer
2. CR foam for a comfortable feeling
3. Polyester bottom layer

FULL STRETCH

1. Polyester top layer for excellent stretch, a smooth feeling and a soft touch
2. SCR foam for a comfortable feeling
3. Stretch polyester bottom layer

SUPREME STRETCH

1. Stretch polyester top layer for excellent stretch, a smooth feeling and a soft touch
2. CR foam for a comfortable feeling and extra stretch
3. Stretch polyester bottom layer with a thermo finish

REGULAR STRETCH

FULL STRETCH

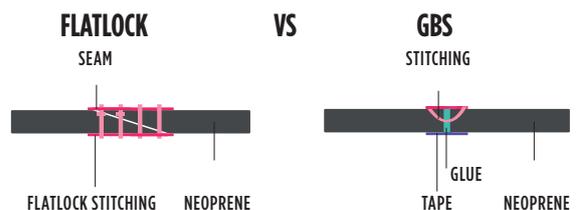

SUPREME STRETCH

STITCHING TECHNIQUES

The stitching of the seams is an important determinant of the warmth and flexibility of the wetsuit. Flatlock stitching is most common and it is a super durable technique. Flatlock stitching perforates the neoprene which means water might still enter the wetsuit. Therefore, we use the GBS technique in our high end wetsuits to give extra flexibility and that are meant to keep you warm. GBS stands for glued and blind stitched. The neoprene is first glued and afterwards it's stitched. The stitching is only down half through so it doesn't perforates the neoprene. Water does not enter the wetsuit that way and that is what you want in cold water temperatures.

CHOOSE YOUR WETSUIT

Choosing your wetsuits is dependent on the water temperature and the type of watersports you want to perform. Wakeboarding or slalom skiing demands a higher level of stretch than laying on a tube. Therefore, you want to look for the level of stretch in a wetsuit. Besides that, a chest zip gives more flexibility to the wetsuit, while a back zip means the wetsuit is easier to put on. Knowing the temperature of the water is very important. Colder temperatures require more high end wetsuits like our steamers that use a lot of techniques to keep you warm. Enjoying a tubing day in the summer? Then look for a shorty wetsuit instead.

MULTI POSITION BOARDS

MEET THE JOBE MULTI POSITION BOARDS

Designed for flexibility, these boards can be used in multiple orientations or positions, making them ideal for a long and fun time on the water! Stand up, lay down, get on your knees or ride it as a wakesurfer. Three boards, endless possibilities!

STIMMEL

OMNIA

CHIPPER

STIMMEL VS. OMNIA

The Stimmel is our classic multi position board with removable surf fins. Its big brother, the Omnia, is produced with the same techniques as our wakeboard collection and has therefore similar great features. The Omnia is lighter, thinner, contains removable footstraps and the board is more playful yet equally strong!

UNIQUE TOW POINTS AND INTEGRATED SIDE HANDLES

Our unique tow points makes the start so easy! Simply put the handle in the tow point, grab the side handles and the boat pulls you out of the water. Our unique tow points come in 2 different designs. One of the Stimmel & Omnia and one specially for the Chipper!

ROTOMOLDED VS. COMPRESSION MOLDED

Our Stimmel & Chipper are roto molded which makes both boards super strong and durable. Our Omnia board is compression molded which makes it strong, thin and light resulting in a playful and responsive board.

STIMMEL MULTI POSITION BOARD

DISCOVER THE DIFFERENT WATERSPORTS POSITIONS OF THE OMNIA & STIMMEL & CHIPPER

Turn, twist and jump: everything's possible with the Jobe multi position boards. You can use it to water ski, kneeboard, lay down and ride like a towable, wakeboard, wakesurf, sit on it and so much more. Find your position and go play!

KNEEBOARDS

CHOOSE YOUR KNEEBOARD

SLASH

PROPHECY

SLASH VS. PROPHECY

The Slash is an easy to ride board with a fast learning curve. This board is fast, super playful and its winged outline is great for carving!

The Prophecy is your entry way to a wide range of tricks! This kneeboard is a light and stable board that is playful and perfect for tricks for the slightly more experienced riders.

ROTO MOLDED VS. COMPRESSION MOLDED

The Slash boards have a rotomolded foam injection build, which gives the boards extra buoyancy and durability.

Our Prophecy kneeboard is produced with the same techniques as our wakeboard collection and has therefore similar great features. The high-press core is covered in Tri-tech fiberglass to produce a light and thin board ensuring a strong product with the best response and playfulness.

PACKAGE CONTAINS

Transparent Kneeboard Bag • Universal Vest Blue • Tow Hook Handle

MADE TO SLASH

The Slash has proven to be an innovator which has been loved by all! Where others have a factory standard shape, we decided to take a different route and implement our Form Follows Function philosophy in our design.

EASY START TOW HOOK

This board comes equipped with a tow hook for an easy start. Kneeboarding made easy for beginners and young ones as this tow hook makes it possible to connect your handle and makes starting from the water as easy as can be.

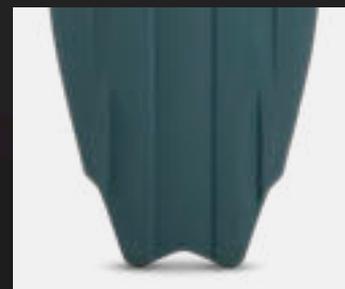

WINGED OUTLINE

The Slash features an innovative winged outline that creates one of the most playful kneeboards that we ever had! This special shape gains more speed and effortlessly carves you through the water.

CHANNELS

This board features a channel setup which has been tried and tested to get the most out of the unique winged outline. A channel setup which is combined with a deep center channel for stability and deeper channels towards the tail make for plenty of grip. But because we kept the molded fins out, you do get a board which has a playful touch making it possible to twist, turn and slash around.

WATERSKI

ORIGIN OF JOBE

Back in 1974, pro water-skier Jeff Jobe founded the brand and started developing waterskis with the belief that we can do better, be better and make better products. Fast forward to 2026 and we still believe this to be true and strive to innovate and make the best products on the market.

HEMI COMBO (P185)

INTERMEDIATE

ALLEGRE COMBO (P183)

ADVANCED

MODE COMBO (P186)

SLALOM

MODE SLALOM (P186)

TOE STRAP

The extra molded overlay adds more durability which is useful when you let go of your combo ski to continue slalom skiing.

OUTLINES

Our skis come with a tapered outline, ensuring the best time out on the water! A wide nose which runs narrow towards the tail of the ski give the ski its floating capabilities and make sure the nose of your ski doesn't dive underwater. Add some extra rocker in the nose of your ski and you've got yourself one of the best pieces of watersports gear out there.

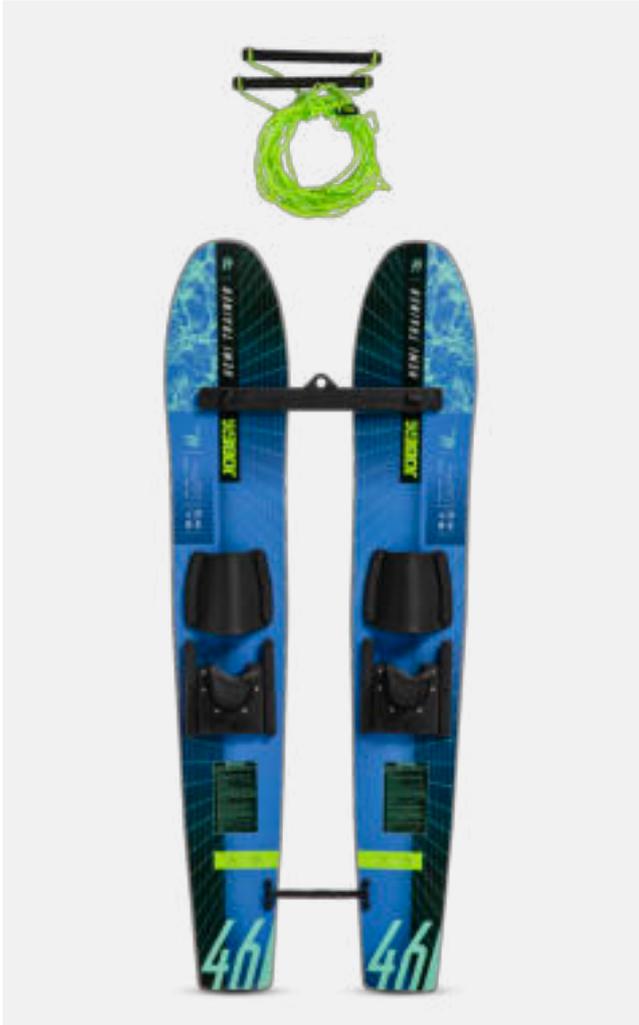

TECHNOLOGY

Our range of skis come with the best tech to ensure the best ride. The outline might give the skis their floatation but the tech on the inside make for the dampening and response. A rim injection combined with metal rods for better response, bright fins for visibility, V-bottom for better traction and that's just the tip of the iceberg!

WAKEBOARDS

IT'S ALL ABOUT THE EXPERIENCE

It's not about the highest jumps, the most spins or double flips... Wakeboarding is about the good times! We're longing for those summer days on the boat with friends. The days where we ride out, push each other and laugh about our fails and cheer when we land something new.

TIME TO RELOAD

The Reload is back and better than ever! Reimagined for today's cable riders while staying true to its roots. This updated version brings a fresh new design to the same trusted shape that made it a favorite in parks everywhere.

Whether you're hitting features or doing air tricks, the Reload delivers consistent, reliable performance with a modern edge. It's the perfect blend of proven performance and updated style, ready to hit the park better than ever!

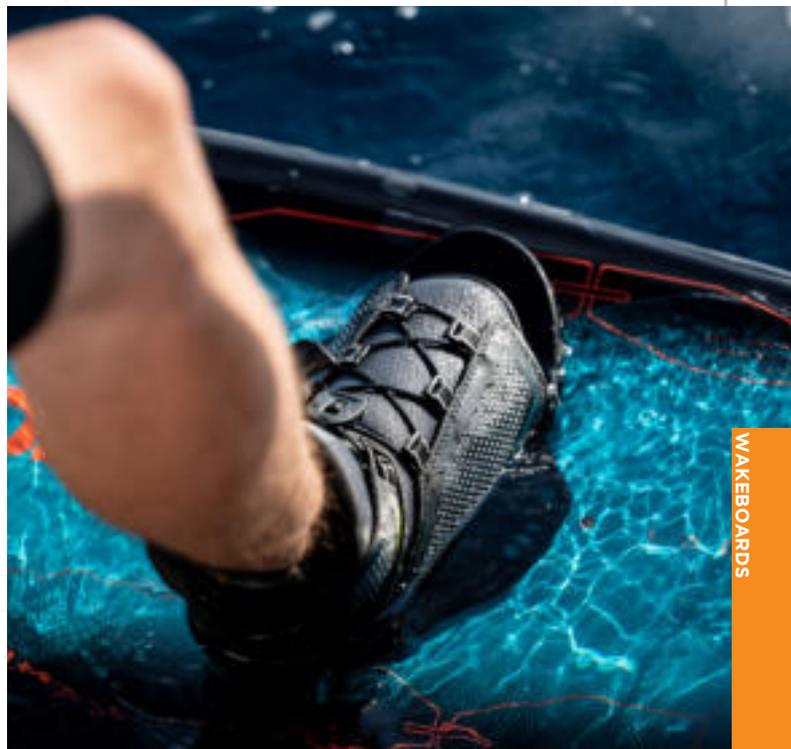

OPEN TOE VS. CLOSED TOE

When it comes to wakeboard bindings, the choice between open toe and closed toe comes down to fit and performance.

Open toe bindings offer more flexibility in sizing, making them great for sharing and growing feet- ideal for beginners or family setups.

Closed toe bindings, on the other hand, provide a snug, responsive fit for better control and power transfer, perfect for advanced riders looking for precision.

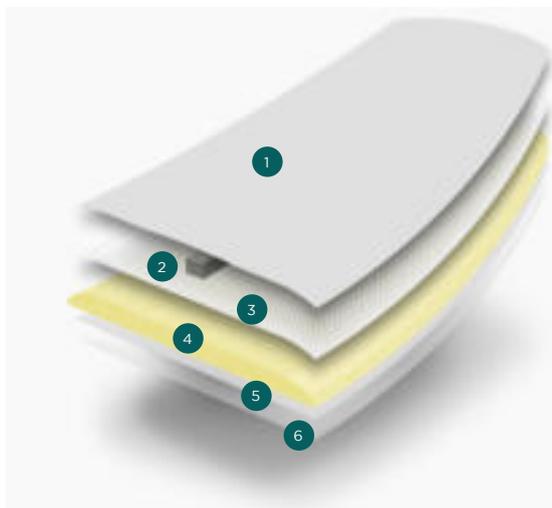

Both have their place - it's all about what fits your style and needs on the water.

WAKEBOARD CONSTRUCTION

Different constructions mean different riding experiences. We made sure there's a board for everyone, check out which techniques suit your needs!

PU FOAM CORE

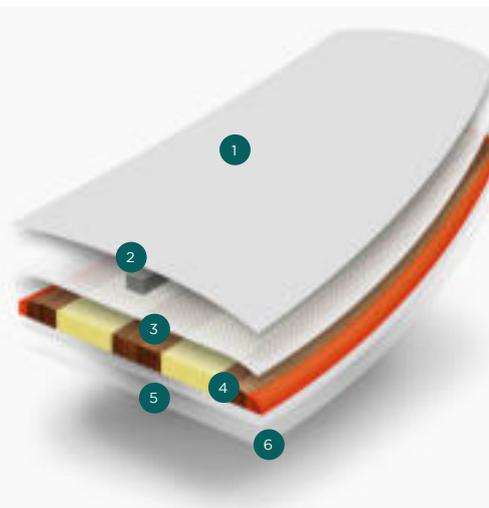

FUNCTIONAL AND RELIABLE

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **PU foam core**
5. Fiberglass lay-up
6. Base

PU FOAM CORE

Foam is a lightweight material which absorbs the blows from a landing and makes for higher jumps due to the reduced weight.

HYBRID CORE

THE ULTIMATE MATCH OF FLEX AND STRENGTH

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **Hybrid core of wood and PU foam**
5. Fiberglass lay-up
6. Base

HYBRID CORE

A combination of PU foam and wood core for unmatched performance. This makes for a lightweight board with a nice soft flex, the best of both worlds!

ROCKERS

THREE STAGE

Looking for aggressive pop and an easy lock? Three-stage is the way to go. A shape which gives a competitive edge to your board.

CONTINUOUS

A shape with a more forgiving and relaxed nature. This rocker has a more consistent speed which also results in the fastest shape out there.

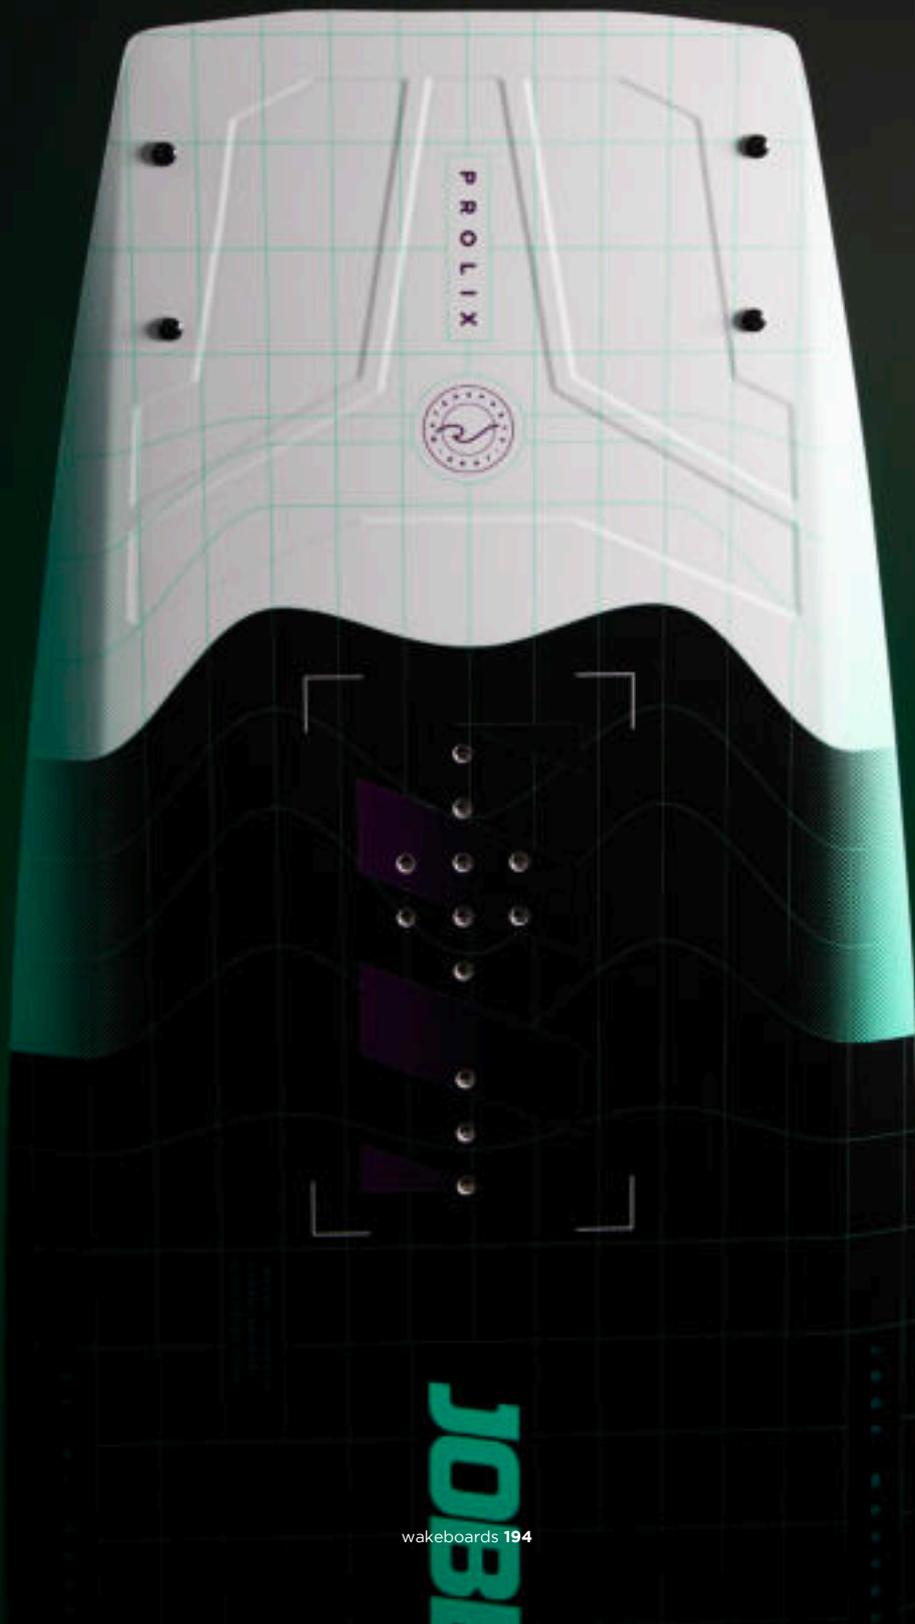

HYBRID

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

INDENT TECHNOLOGY

This technology uses strategically placed recesses in the board's surface to remove unnecessary material without sacrificing strength or durability. These carefully engineered indentations on our Prolix and Maddox reduce overall weight, making the board feel lighter underfoot and more agile on the water.

WAKESURFERS

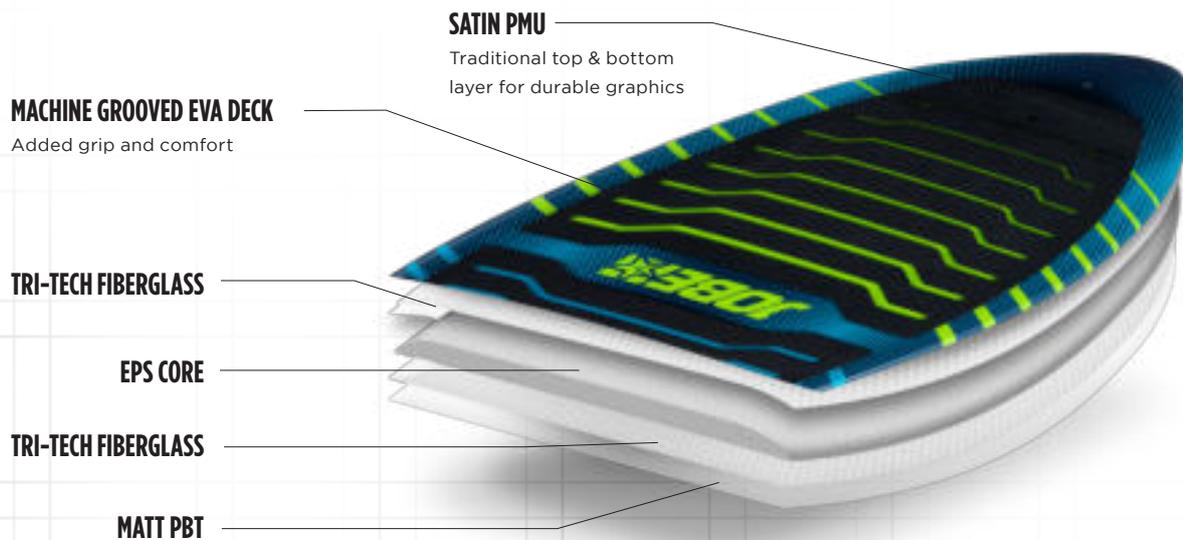

SUMMER SURF DAYS ARE WHAT IT'S ALL ABOUT!

Jobe wakesurfers are perfect for people who just want to cruise and ride that endless wave, whether you're a beginner or advanced: everyone loves a good surf!

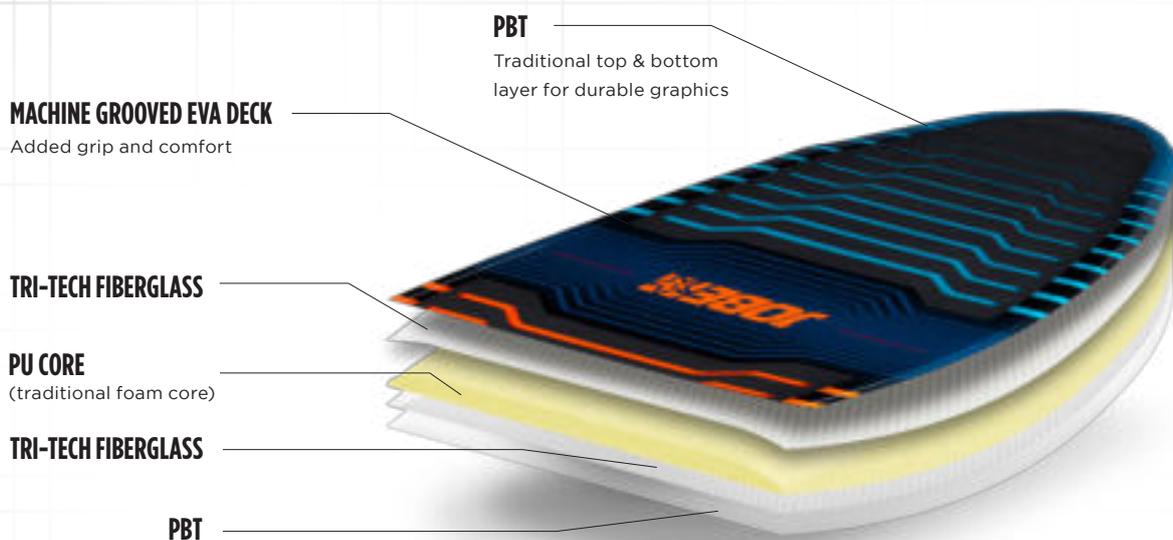

RAISE CORE

The Raise comes with our EPS lightweight core, which makes it the lightest board in our range. Not only is it lightweight but the Tri-tech Fiberglass adds response to the board, perfect for skim style! As if this wasn't enough this board is made with 100% solar power.

LAZE & PACE CORE

The Laze and the Pace both are High Press Fiberglass molded, this creates a board which has a tendency to give a fast response. This makes these boards durable and perfect for a wakesurf style rider to add on top of that; both boards are made with a 100% solar power!

RAISE WAKESURFER

Item 582523002

AESTHETICS MEETS FUNCTIONALITY

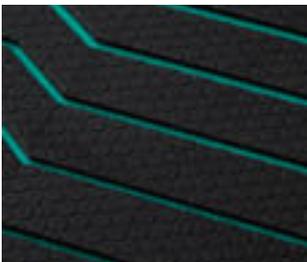

If you look closely at our wakesurfers, you'll find a die cut pattern in the deckpad, and we designed this for good reason!

When it comes to wakesurfing, grip is everything. This custom die-cut pattern not only enhances the board's look but also adds traction, giving your toes something to hold onto. The result? Better edge control, faster response, and more fun every ride.

COLLABORATIONS

BRABUS

Meet one of the boldest collaborations in the history of watersports. Our passion to inspire friends and families and create dashing memories comes together perfectly with the adventurous and luxurious image of BRABUS. Our collections have turned out to be an instant hit which makes us hungry for more.

AXOPAR

A collaboration that allows our company values to flourish in the most inspiring way. The adventurous spirit and innovative drive of Axopar align seamlessly with Jobe's identity. This shared vision has led to the creation of the exclusive Adventure Collection - a lineup designed to elevate on-water experiences through style, performance, and exploration.

Jeep

The collaboration between Jobe and Jeep is a natural fit, merging Jobe's expertise in watersports with Jeep's legacy of rugged adventure. Both brands are synonymous with quality and innovation, creating exceptional experiences for adventurers at heart. Together, they inspire adventurers to push boundaries, whether on water or land.

BRABUS × JOBE

Meet one of the boldest collaborations in the history of watersports. Our passion to inspire friends and families and create dashing memories comes together perfectly with the adventurous and luxurious image of BRABUS. Our collections have turned out to be an instant hit which makes us hungry for more.

MORE THAN 50 YEARS OF MAKING JOBE MOMENTS

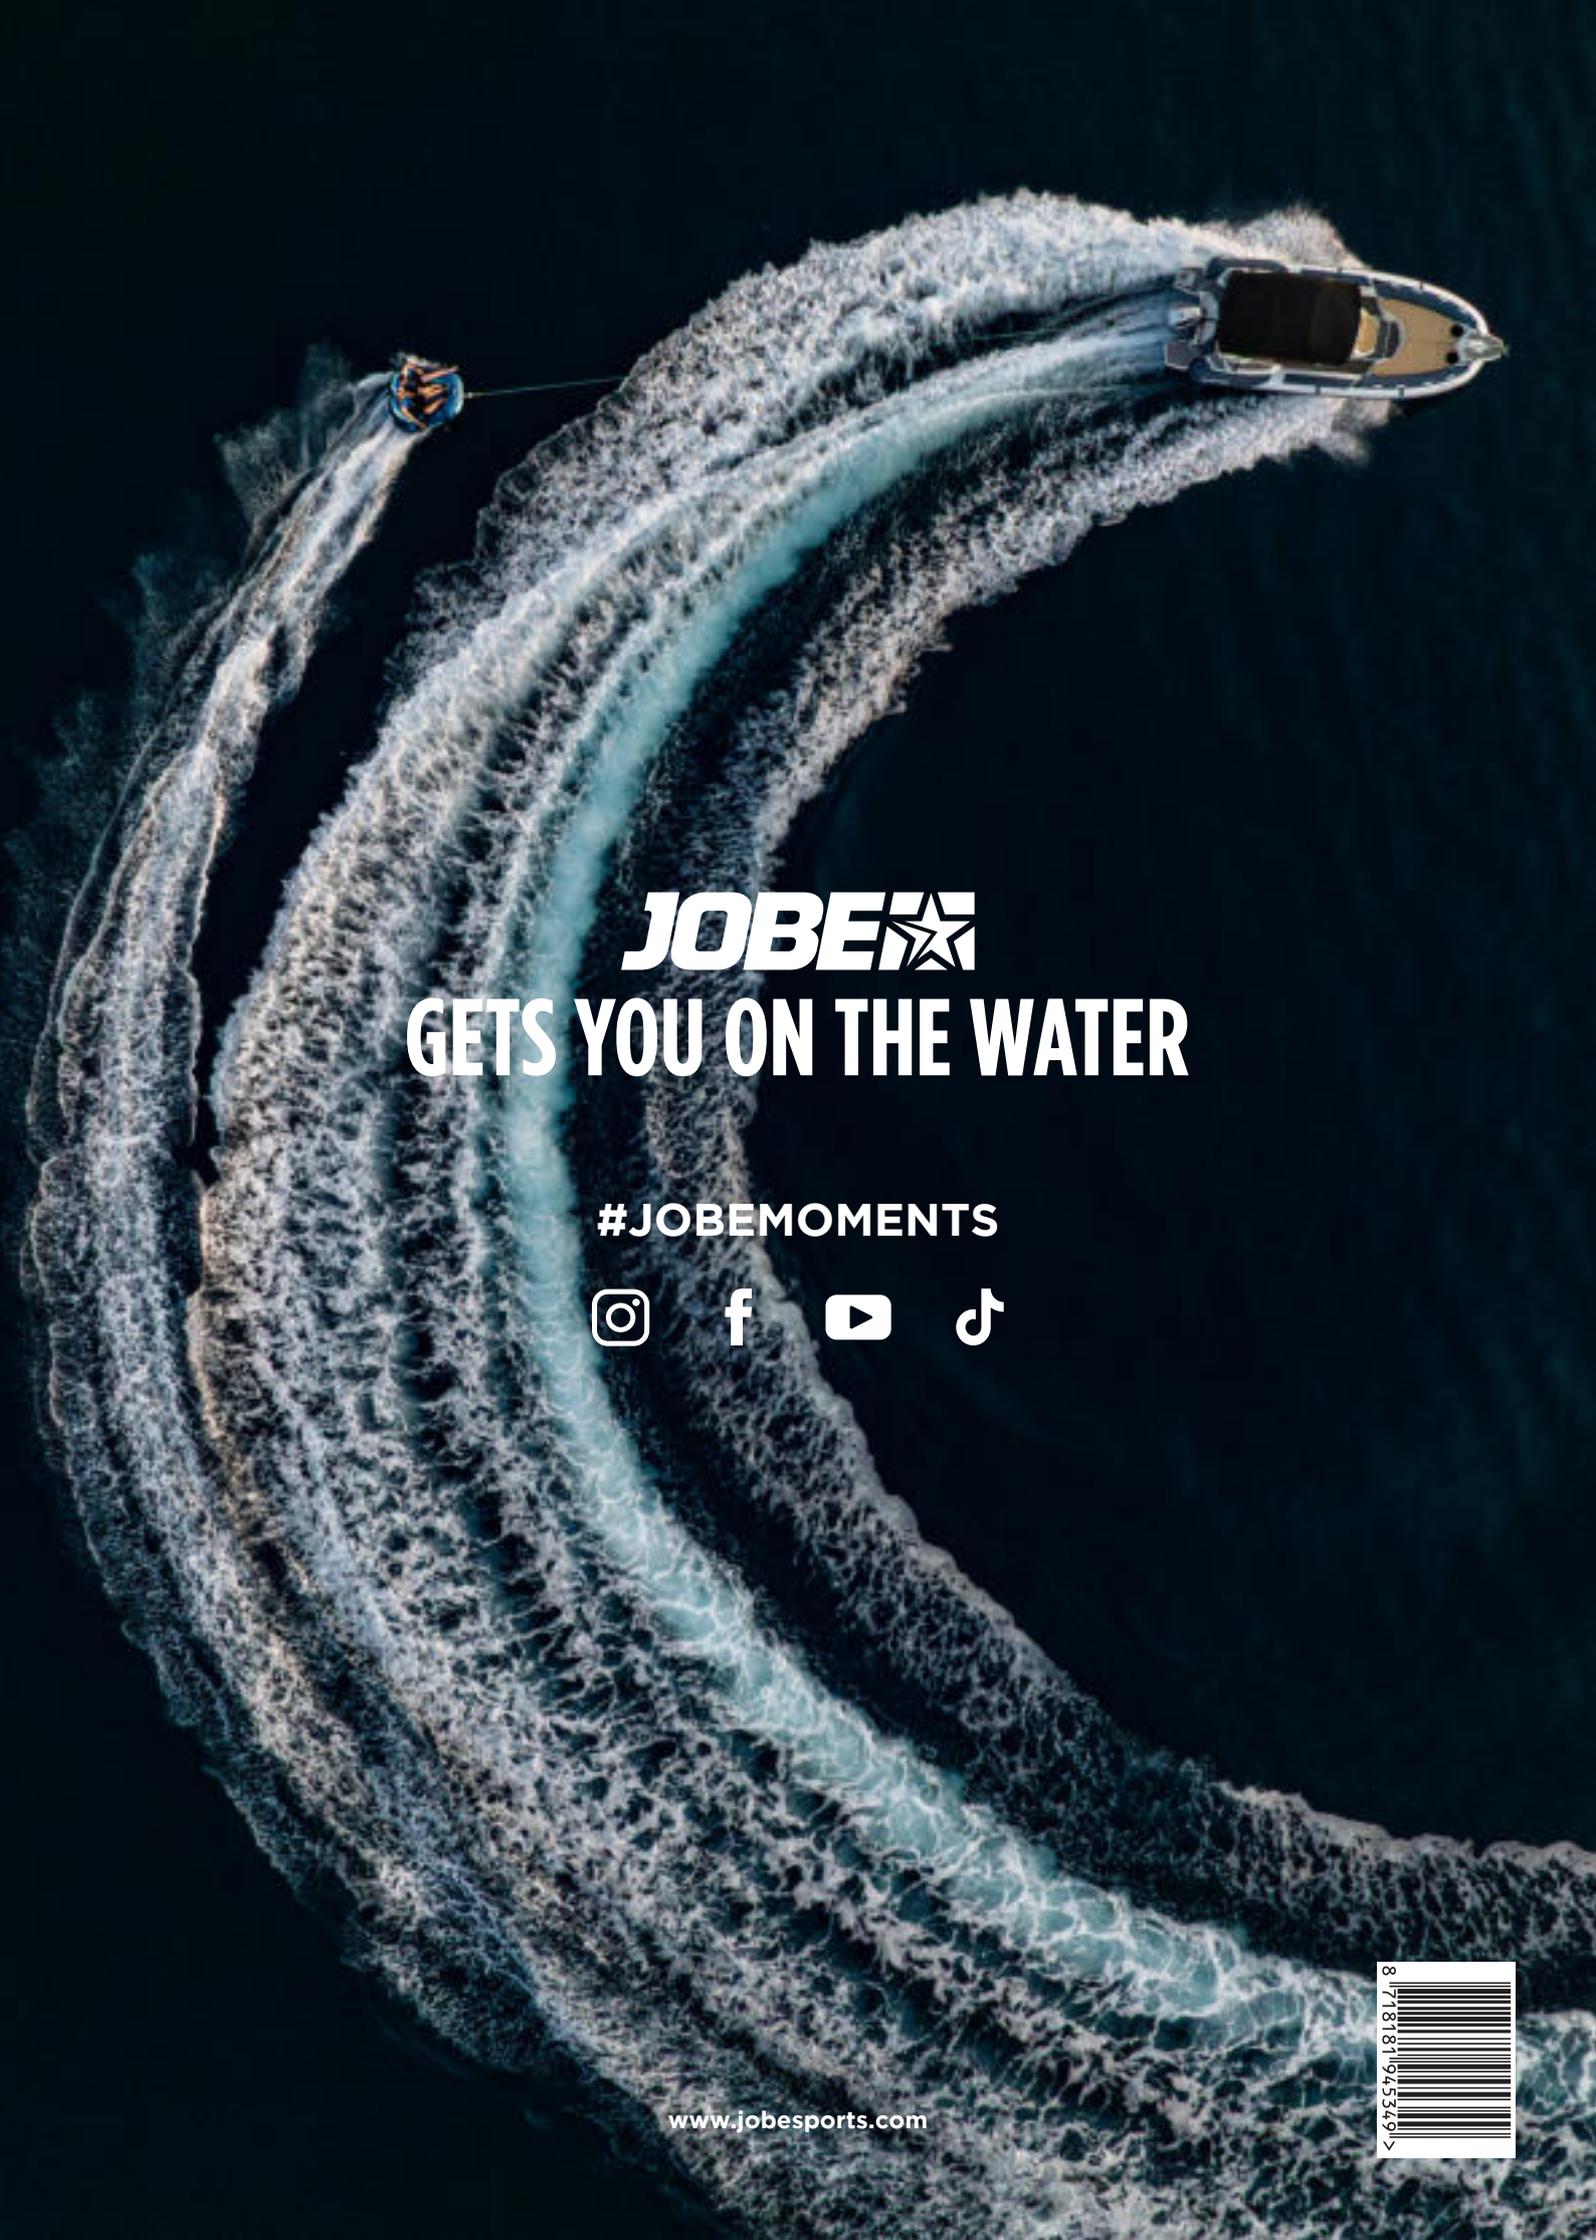

Since our humble beginnings in 1974, we have evolved into one of the leading brands in the global watersports community. Our success over the past 50 years is a testament to your endless support and loyalty.

As we celebrate this milestone, we look forward to creating many more unforgettable #Jobemoments together in the years to come!
